

Symon LobbyView

LobbyView™ is an interactive, touch-screen information portal for venue lobbies, waiting areas, corridors, etc. LobbyView provides portal-users with a one-touch connection to news, sports, weather, maps, venue amenities, airline flight data and optional meeting and event information. LobbyView can serve as a virtual concierge to help venue guests and patrons to navigate the property in which it is installed.

Benefits:

LobbyView provides many benefits to the property and its guests:

- ▶ Allows venue personnel to focus their time on more consultative activities
- ▶ Allows venue management to offer their guests an easy-to-use virtual concierge
- ▶ Enhances a guest's visitation experience by providing easy access to information
- ▶ Enables the venue to portray an aura of technical sophistication and competence
- ▶ Enhances the company's/venue's branding and image.

Features:

LobbyView is available in both a landscape and portrait orientation and it features two design aesthetics from which to choose. LobbyView can be wall mounted or installed in a free-standing optional finished enclosure. LobbyView is available in three screen sizes: 42 inch, 46 inch and 55 inch.
